Dear Michigan Realtors®,

As we all anxiously prepare to safely reopen real estate on May 7th, the Michigan Realtors® legal team has prepared a "Safely Reopening Real Estate Toolkit." This resource will include new Legal FAQs that we will update from time to time as we embark on this new normal. Also included is a one-sheet, outlining requirements under the Executive Order 2020-70, as well as best practices that we encourage you to consider. Lastly, we have developed two new forms that you may wish to incorporate into your business. While these forms are not mandatory, they do address COVID-19 showing authorization directly and also include best practices for your buyers and sellers to follow.

Michigan Realtors® authorizes associations and respective form vendors to include these forms in their libraries. Any questions about this authorization may be directed to Brian Westrin at bwestrin@mirealtors.com.
