

## Video Surveillance

When it comes to surveillance, protection and detection are our top priorities. Having a seamless, around-the-clock monitoring system in place for your facility is effective both as a proactive measure, in deterring theft, vandalism, and other criminal activity, and as a reactive measure, in investigating an incident after it has occurred.

### Our Video Surveillance Services Include:

- ✓ Consultation and assessment to determine your specific needs
- ✓ Full design, installation, and configuration of your customized video surveillance system from expert security specialists
- ✓ IP high-definition cameras and equipment for sharp and clear images
- ✓ Real-Time and Recorded Video Viewing
- ✓ Video delivered to your smartphone or tablet, anywhere in the world
- ✓ Intelligent Video analytics
- ✓ 24/7 service and support

## VoIP Phone Systems

No matter the size of your organization, the right phone system can help improve collaboration, boost productivity, increase mobility and enhance the customer experience. Our solutions take communications to the next level by expanding on standard telephony features while reducing costs. With our modern, intuitive VoIP softphone and smartphone apps, users have access to communication tools such as status, instant messaging, web conferencing, the ability to chat and talk with website visitors, fax, voicemail to email and more.

Communications Technologies, Inc.  
A BUSINESS COMMUNICATIONS COMPANY

## Our Company

Communications Technologies, Inc. is a leading managed technology solutions provider (MTSP) that partners with businesses to implement the latest:

- Networking and IT infrastructure
- Cybersecurity
- Business Continuity
- Video surveillance
- Cloud (Azure, Office365 and more)
- Business Phone Systems

Our company's mission is to passionately understand our client's goals and vision for their business so we can customize technology solutions that accelerate profitability and provide a competitive advantage. With over 30 years in business, CTI has gained an excellent reputation for designing, implementing and proactively supporting solutions that focus on helping our business partners achieve their goals. CTI has been recognized for outstanding performance by several of the industry's top manufacturers and associations.

Through our membership with Technology Assurance Group, an organization of leading managed technology services providers (MTSPs) in the United States and Canada representing \$800 million in products and services, CTI truly has been able to deliver a national support solution.

## Managed IT Services

At CTI, we take a proactive approach to managing your infrastructure, recommend improvements in business processes, and share best practices designed to help your organization accomplish strategic business objectives through technology. We can help establish goals that focus on how improved IT services delivery can result in better business value. Thus, helping you achieve higher profitability, productivity, and competitive advantage.
